

TOP 6 KNEE BRACES: WHICH ONE TO CHOOSE?

If you're looking for a specific knee brace for yourself or a loved one or a client, then stress no further, this is the right page for it. It's understandable that some of you, especially the retired folks, may find shopping for medical supplies, a lengthy and daunting process. Finding the correct knee brace depends on specific factors – the recommendation from your healthcare professional, brand quality, and price. This is based on numerous research studies that have concluded five-point criteria to grade the knee brace, which is - comfort, support, quality, durability, and affordability.

Our team at XYZ Healthcare Supplies Inc. can help you demystify the buying process and narrow down your choices. So, just hold-on! A knee brace is a support worn around the knee to reduce pain and external pressure, prevent damage and assist in recovery post injury or surgery. It is made from a combination of a variety of materials – plastic, foam, metal, elastic, and straps.

Knee braces are classified based on their type and purpose. Check the table below.

	Type of Brace			
	Prophylactic	Functional	Rehabilitative	Patellofemoral (Off loader)
Purpose	Prevents damage to knee ligaments.	Prevents further damage to an already injured knee by restricting excessive rotational	Assists in knee recovery following surgical repair. It offers more control over specific knee movements.	Designed specifically for <u>arthritic</u> knees. Unloads the stress on the medial side of the knee and direct the

		movements, that is, the inconspicuous movements.		stress on thigh bone.
Injury or condition	Any minor injury	Post recovery of any major injury.	Moderate to severe <u>meniscus</u> or <u>ligament tear</u>	Severe <u>Osteoarthritis</u> . (It is for those who await a knee replacement surgery), <u>chronic knee pain</u> .

Okay, but what's the cost?

Purchasing the correct knee brace can leave many in a financial quandary. Many of our customers have one common concern - is the expense covered by insurance? This could be one of the biggest pieces of the puzzle but guess what, we have some better news for you. Most of the knee braces are covered by insurance. Our list offers very affordable options, and you can also pay it in small monthly installments, for up to 12 months. [Click here](#) to learn more about our payment options.
